

Never Enough – Biden Budget Seeks Absurd \$43.2 Billion for IRS Despite Receiving Unprecedented \$80 Billion Windfall Just Last Year

Biden Doubles Down on Supercharged IRS with \$43.2 Billion Request

- The Administration's \$43.2 billion boondoggle breaks down like this:
 - \$14.1 billion annual budget request for FY 2024 – a 15 percent increase.
 - An additional \$29.1 billion in mandatory funding for enforcement and operations.
- Honest, hardworking American families are worried that the \$80 billion from last year will mean more audits and government monitoring. Now the Biden Administration wants to add **another** \$43.2 billion for the IRS, including \$39.5 billion – more than 91 percent of requested funding – dedicated solely to enforcement and operations.

Bizarre Woke and Climate Priorities Leave Taxpayers Behind

- **Install the Woke Agenda into the Treasury Department, the IRS, and the Tax Code:** President Biden is seeking to "Advance equity across all Treasury programs."
- **Put radical environmentalist policies at the forefront of Treasury:** President Biden wants hardworking taxpayers to "support Treasury's Climate Hub" and "establish a climate-related technical support center to conduct assessments of climate-related risks across government programs."
- **Audit the middle class and small businesses:** The President is not proposing any protections from increased audits for taxpayers making less than \$400,000.
- **Continue the abuse of taxpayers' privacy:** There is no proposal that would protect the confidentiality of taxpayer information at the IRS following the massive leak to ProPublica nearly two years ago.
- **Monitor Americans selling used couches:** There is no mention of relief for taxpayers from onerous information reporting requirements for the basic act of selling a couch or a concert ticket online.

Bottom line: The Biden Budget is yet another step in the Democrats' long-term plan to squeeze every penny out of honest Americans through tax increases and aggressive auditing from a supercharged IRS.
