Lesly,

We need to talk about the computer. It appears the FBI is making certain representations about the device and the only reason we know what is on that device is because of the IRS-CI affiant search warrant that allowed access to the contents. If Durham also executed on search warrant on the device we need to know that so my leadership is informed.

My management has to be looped into whatever the FBI is doing with the laptop. It is IRS-CI's responsibility to know what is happening. Also, if the FBI is planning to release information to anybody we need to be looped in as it possible that data could have various disclosure requirements unique to the IRS.

Let me know when I can be briefed on this issue.

Thanks.
