I received the following and thought we were finished
Hi Hunter, sorry to ping you at late hours. I am texting to convey some info from director Zang:
1) His best regards to you, Jim and VP;
2) He fully supports cooperation with you and the proposition provided by you. Chairman also agrees upon your idea;
3) Kevin is designated by director Zang to discuss with you on technical matters. The fund will be wired to the jointly administrated account in a timely manner.
Thanks!

K-

Very simple:

1. 10M per annum budget to use to further the interests of the JV. This move to 5M is completely new to me and is not acceptable obviously.
2. All expenditures/ expenses salaries will be agreed to by board. My (Biden's) expenses and determination of how BIDEN (loan 5M) capital will be determined by Owasco in consultation with Hudson. The Hudson capital will be utilized for expenses beyond those Biden/Owasco has committed to Monochromes business. (K we won't break 5 and the additional 5 can roll to next year if the Chairman and CEFC review is favorable. It all has to be agreed to by Board - but if the Chairman doesn't value this relationship is being worth at least 5M then I'm just baffled.
3. You saw minor clarification of exclusivity.
4. We are all saying the same thing I hope . Please let's put this to bed tonight sign officially tomorrow (or anytime as late tonight as you want) and get to work. I am tired of this Kevin. I can make \$5M in salary at any law firm in America. If you think this is about money it's not. The Biden's are the best I know at doing exactly what the Chairman wants from this partnership . Please let's not quibble over peanuts.

Hunter, I had numerous discussions with our good and trusted friends in Argentina. JL, has instructed Nico, Atty for Integra , to communicate directly with me/you, validating the MOU that they are in possession of, re Citgo. I will bring it with me to NYC tomorrow . JL has a great deal of trust and confidence in our relationship, to share on a confidential basis, these sensitive Docs!! Signed documentation, will be shared on a strictly!!! Sensitive relationship. I can't stress enough, the assurances I gave him on our behalf. I will discuss in more detail tomorrow, when we meet in person. Nico, will be available for a telephone call tomorrow between 1:00/ 2:00 pm EST. He said, that his team would be willing to travel to China, to meet with the Chairman asap! He questioned, any possible interest, that CEFC might have in several other opportunities in Venezuela/ Columbia , that they are presently engaged in. I told him first things first, which he wholeheartedly agreed with. Hunter, JL/ Nico, have a great deal of confidence in our ability to navigate this complicated opportunity. I assured him, that they would be delighted, in meeting the Chairman, whom you have spoken of so highly. I will forward for you eyes only, additional info I receive from Nicol U Jim. P S please provide time and place of the luncheon. I think I wise that we have enough time together, to sort thru some details.

Kevin- this is a completely different and less significant question - I would like to know exactly who kaackie works for. HW3 or CEFC. For her understandingly there is confusion about not only where her loyalty's lie - I keep telling her there is no difference - but also about how things are reimbursed and how communication should flow. Let's you and I straighten out for her sake it's very unfair to her. She had never complained and is working the job of 5 people and want to ensure she is positioned for success.

Kevin please call me. I have no intention of presenting Ye with ONE proposal for our first investment in LNG. I have heard from someone that's what you believed I was proposing. That person also said that you thought it was unwarranted for me to meet with my partner at this moment. I hope that is not true- or if it is I hope that you would explain your thinking. Chairman Ye and I agreed to meet at least once a month or so to discuss our business and our families and the paths our countries are taking so that we may have a positive impact impact for many generations to come.
This is the 3rd time I've asked to meet with him though you and that meeting has not been arranged.
AND YOU WERE RIGHT TO KEEP ME AWAY.
However, all you need to do with me is tell me why and how it benefits us. I always take your counsel as truths gained through experience.

The Disclosing Party expressly disclaims any representation or warranty, either express or implied, as to the Confidential Materials, including, but not limited to, its accuracy or completeness, notwithstanding any course of performance, course of dealing, or usage of trade or lack thereof inconsistent with this Section 12. Any reliance by the Receiving Party upon the Confidential Materials or communications and discussions hereunder shall be undertaken with a full release and waiver of all claims for liability against the Disclosing Party. Only those representations and warranties that may be made in a Definitive Agreement when and if executed shall have any legal effect.

13. **Independent Entities.** The parties are independent entities and nothing contained in this Agreement shall be deemed or construed as creating a relationship of partnership, association, principal and agent or joint venture by or between the parties. The parties shall have no right or authority to assume or create any obligation or responsibility on behalf of the other party or to bind the other party in any manner whatsoever even if such actions are taken for the benefit of the other party.

14. **Costs.** Except as specifically otherwise agreed to in writing and executed by the parties, each party shall bear its own costs and expenses with respect to the purpose of this Agreement.

15. **Publicity.** Neither party shall issue a press release regarding this Agreement or use the other party's or its partners' or affiliates' names in any advertising or publicity, without the other party's prior written consent.

16. **Equitable Relief.** Because the unauthorized disclosure of the Confidential Materials may not be adequately compensated through monetary damages, the Receiving Party acknowledges that the Disclosing Party has the right to seek restraining orders, injunctions and other equitable relief to prevent the Receiving Party from disclosing the Confidential Materials or from otherwise using the Confidential Materials in breach of this Agreement.

This Agreement shall be personal to the parties and may not be assigned or otherwise transferred by either party without the prior written consent of the other party. Subject to the language herein, this Agreement shall be binding on the party's successors and permitted assigns. This Agreement constitutes the entire agreement of the parties with respect to the subject matter thereof and replaces, supersedes and merges all prior communications, understandings and agreements between the parties, whether oral or written, expressed or implied regarding the purpose of this Agreement which are merged into this Agreement. There are no other agreements, promises, representations, warranties, covenants, or undertakings with respect to the subject matter hereof. The confidentiality obligations in this

Subject: Trade Group-Hudson West Proposal

Dear Hunter,

It was a pleasure talking to you and Jim last week about the potential for working together to pursue our respective business interests. I believe based on our conversation that there is a real opportunity for Trade Group and our existing partners, such as BDW Trade, to work productively with Hudson West with respect to the purchase and sale of crude oil and refined petroleum products. The purpose of this letter is to reiterate the points we discussed on the conference call in order to establish a framework for how we can best move forward.

As we discussed, Trade Group's primary business is the sale of various refined fuels in bulk quantities (minimum of 100,000 MT per month), which allows us to offer highly competitive pricing. At the appropriate quantity, our pricing is typically below the prevailing Platts benchmark, including CIF delivery to the buyer's logistics. The key to our business model is that Trade Group is one of the relatively few companies in the United States (less than 50) who holds an active Merchant Direct Number (MDN) from Shell-Motiva.

Given our longstanding relationship with Shell-Motiva, Trade Group has a unique advantage in the marketplace by enabling us to utilize the same Tier-1 providers that the refinery has access to upon exceeding its restraint (limit) to provide fuel in the quantity that has been requested. Depending on the type of fuel at issue, Trade Group can supply a buyer with anywhere from a minimum of 36 million gallons to several hundred million gallons of fuel per week. And by leveraging our collective experience in vetting potential transactions, both from a financial and an operational standpoint, Trade Group is able to structure deals to minimize any problematic issues with our buyers. To date, we are proud to say that Trade Group has never had a failed transaction with Shell-Motiva.

In addition to Shell-Motiva, Trade Group has successfully sourced fuel from other select providers in the primary or secondary markets, such as MII Oil Holding, and has a strategic relationship with a major logistics company that allows us to deliver fuel to all major port facilities in the world. Thus, while we are small enough to be flexible, Trade Group has the capacity to supply substantial quantities of fuel on a worldwide basis. In that regard, Trade Group also has a stable of qualified clients in the secondary market that are ready, willing, and able to purchase fuel.

As I see it, there are multiple opportunities for our companies to work together, either as equity partners or in a joint venture arrangement. At a minimum, I can foresee at least three possible business models:

1. Depending on the type of relationship that your company has with a Russian refinery, Trade Group can be a purchaser of fuel in order to function as a reseller to our buyers. Alternatively, Trade Group could function as an allocation holder of the fuel from your refinery in order to sell the fuel on your company's behalf to fuel purchasers. This would include supplying fuel to your company's existing clients in Asia and elsewhere.
2. With your company functioning as a capital investor of approximately \$150M, Trade Group would be able to close immediately on five pending transactions. In each case, the buyer is looking for an investor that is willing to come forward with a deposit to the refinery, known as a Deposit Advance Payment (DAP), which covers 20% of the initial fuel order. The aggregate quantity of these five transactions is approximately 372 million gallons per week for an initial contract term of 52 weeks, with rolls and extensions. Taken together, this would provide the Joint Venture a gross profit of approximately \$652M over a 12-month period.
3. As a capital investor/partner with an investment in the \$300-500M range, Trade Group would have the resources to establish tank storage operations at airports and port facilities at strategic locations throughout the United States. This would permit Trade Group to function as the fuel provider and tank storage facilitator for several major "end burners" with whom we have been in discussions, such as Fed Ex, UPS, and Carnival Cruise Lines. As we discussed, these large companies are now moving to a new "Purchase on Demand" concept for acquiring fuel for their airplanes, vehicles, and/or cruise ships. In this way, Trade Group would be able to create a new model for providing fuel to these companies and establish itself as a leader in the primary market.

This is by no means a comprehensive list of potential lines of business, but rather identifies several immediate ways our companies could leverage their resources to begin working together. We look forward to having further conversations and eventually a face-to-face meeting to discuss the most efficient ways we can move forward together in a prosperous manner.

Best regards,

Roland Coston

Re: LNG Procurement and Investment Opportunity

Hudson West will make the most money by performing on the following:

THE PLAN

1. Hudson West will make an investment of \$150 Million in Monkey Island LNG in return for stock in the company secured by the 246-acre premium project site.
2. Monkey Island LNG will use \$100 Million to advance the project development to financial close.
3. Monkey Island LNG will use the remaining \$50 Million to start trading LNG cargos immediately.
4. Hudson West will participate, on a pro-rata basis, in all aspects of Monkey Island LNG operations, including the buying and selling of LNG.
5. Monkey Island LNG is in a position to develop other financial structures and compensation negotiated on a success basis.

DETAILS

1. The \$150 Million investment will yield Hudson West a 30% stake in Monkey Island LNG (MILNG) prior to other private equity firms making investments. Investors at this stage in U.S. LNG facilities have earned 3,000% returns on invested capital.
 2. The \$150 Million investment would entitle Hudson West to an MILNG board seat and a commercial team dedicated to obtaining LNG cargos for CEFC immediately.

3. Concurrent with the investment, CEFC will sign a binding long-term LNG sales and purchase agreement with MILNG for volumes desired by CEFC.
 4. Between now and commercial operation of the MILNG facility, MILNG will use its relationships to supply CEFC the contracted LNG quantities from other LNG producers. The contract will contain provisions that will require MILNG to obtain LNG in the interim to meet the needs of CEFC.
 5. CEFC will be required to put in place any necessary letters of credit to facilitate the purchase and delivery of LNG.
 6. MILNG will be responsible for the acquisition and shipping of all LNG, and supply LNG cargos to CEFC on a DES basis
 - a. Monkey Island LNG has access to both short-term and long-term contracts of 6 mtpa, or more.
 - b. Contract durations and/or supply of spot cargos will be negotiated by MILNG at the direction of CEFC.
 7. As an owner in MILNG, Hudson West will have preferential access to all LNG prior to other customers.
 8. MILNG is a privately-owned company, and Mr. Michaels has the ability to quickly and easily develop a financial transaction that allows Hudson West the ability to capitalize on the changing LNG market fundamentals.
 9. Potential for Hudson West to have liquidity on privately held shares of stock will occur throughout the ownership and development. It has been shown that staying private may result in the largest return on investment. However, MILNG is in an excellent position to take the company public if the parties agree.
 10. The \$150 Million in just a few years could have a value of over \$1 Billion for Hudson West and only increase from there.
 11. After commencement of operation, the project itself will return over \$800 Million per year in net income, providing Hudson West a lifelong lucrative annuity stream. This does not take into consideration the profit that will be made selling interim LNG cargos.
